

**TOWN OF HOLBROOK
PUBLIC WORKS DEPARTMENT
HYDRANT FLOW TEST**

NOVEMBER 18, 2021

The Holbrook Public Works Department will be testing the hydrant located on Maple Ave between the hours of 9:00 p.m. – 11:00 p.m. The activity may cause discolored water in varying degrees in the local area. Persons who experience water discoloration should clear their water systems by opening the cold-water faucet for several minutes and then wait about an hour. If the water still is not clear, they should repeat the flushing procedure.
